### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The art of record does not reasonably suggest and provide motivation for the white toner of the instant claims. The art does not provide reasonable guidance to obtain from 6 to 10 % by number of white toner particles having a size of no greater than 4 microns while at the same time modifying the amount of colorant outside the scope of the Sakashita reference's teaching and choosing white as the colorant for the toner having a size of no greater than 14 microns. The combination of modifications required is outside what would have been obvious to the skilled artisan.

There is no indication in Sakashita that the relationship of particles no greater than 4 microns in Example 6 as compared to the amount of toners at 5 microns or below would be or should be present in Example 7 or that the particle size distributions would be of the same for different toners. The amount of modifications and substitutions required to arrive at the claimed toner from Sakashita is not motivated by the art give the instant claims' narrow number of particles no greater than 4 microns and the colorant's features. The other art has been reconsidered but does not provide sufficient suggestion of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher RoDee whose telephone number is 571-272-1388. The examiner can normally be reached on most weekdays from 6:00 to 4:30.
